Daiwa Capital Markets Hong Kong Limited

First Addendum to the Base Listing Document relating to

Non-collateralised Structured Products

to be issued by

Daiwa Capital Markets Hong Kong Limited

(incorporated with limited liability in Hong Kong)

Daiwa Capital Markets Hong Kong Limited (**Issuer**) has published this document in respect of warrants on single equities (**single equities warrants**), warrants on a single fund (**fund warrants**), warrants on a single index (**index warrants** and, together with the single equities warrants and the fund warrants, the **warrants**), callable bull/bear contracts on single equities (**equity callable bull/bear contracts**), callable bull/bear contracts on a single fund (**fund callable bull/bear contracts**) and callable bull/bear contracts on a single index (**index callable bull/bear contracts**, and, together with the equity callable bull/bear contracts and the fund callable bull/bear contracts, the **CBBCs**) and any other structured products approved by The Stock Exchange of Hong Kong Limited (**stock exchange**) from time to time (such other structured products, together with the warrants and the CBBCs, being referred to as the **structured products**) to be issued by the Issuer in series (each, a **series**) from time to time and listed on the stock exchange.

Hong Kong Exchanges and Clearing Limited, The Stock Exchange of Hong Kong Limited and Hong Kong Securities Clearing Company Limited (**HKSCC**) take no responsibility for the contents of this document, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this document.

This document, for which the Issuer accepts full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the **rules**) for the purpose of giving information with regard to the Issuer. You must read this document in conjunction with our base listing document dated 3 July 2014 (as amended, supplemented or updated from time to time, the **base listing document**). The Issuer, having made all reasonable enquiries, confirms that to the best of its knowledge and belief the information contained in this document is accurate and complete in all material respects and not misleading or deceptive, and there are not other matters the omission of which would make any statement herein or this document misleading.

Additional terms and conditions relating to each series of our structured products will be set out in a supplemental listing document (each, a **supplemental listing document**) which will be supplemental to, and should be read in conjunction with, this document and the base listing document.

The structured products involve derivatives. Investors should not invest in the structured products unless they fully understand and are willing to assume the risks associated with them.

Investors are warned that the price of the structured products may fall in value as rapidly as it may rise and holders may sustain a total loss of their investment. Prospective purchasers should therefore ensure that they understand the nature of the structured products and carefully study the risk factors set out in the base listing document and the relevant supplemental listing document and, where necessary, seek professional advice, before they invest in the structured products.

The structured products constitute general unsecured contractual obligations of the Issuer and are obligations of no other person and will rank equally among themselves with all the other unsecured obligations of the Issuer (save for those obligations preferred by law) upon liquidation. If you purchase the structured products you are relying upon the creditworthiness of the Issuer and have no rights under the structured products against, as applicable, the underlying asset, any company which has issued the underlying asset or any company which sponsors the underlying asset or whose securities are comprised in the underlying asset. If the Issuer becomes insolvent or defaults on its obligations under the structured products, you may not be able to recover all or even part of the amount due under the structured products (if any).

IMPORTANT INFORMATION

If you are in any doubt as to any of the contents of this document, you should consult your stockbroker or other registered dealer in securities, bank manager, solicitor, professional accountant or other professional adviser.

Notes to the unaudited interim financial report

(Expressed in United States dollars)

1 Basis of preparation

The unaudited interim financial report has been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”).

The unaudited interim financial report has been prepared in accordance with the same accounting policies adopted in the 2014 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2015 annual financial statements. Details of these changes in accounting policies are set out in note 2.

2 Changes in accounting policies

The HKICPA has issued a number of amendments to HKFRSs and one new Interpretation that are first effective for the current accounting period of the Company. Of these, the following development is relevant to the Company’s financial statements:

Amendments to HKAS 32, *Offsetting financial assets and financial liabilities*

The amendments to HKAS 32 clarify the offsetting criteria in HKAS 32. The amendments do not have an impact on the Company’s unaudited interim financial report as they are consistent with the policies already adopted by the Company.

The Company has not applied any new standard or interpretation that is not effective for the current accounting period. These developments do not have any material impacts on the Company’s financial statements.

23 Fair values of financial instruments

(a) Fair value hierarchy

The following table presents the fair value of the Company's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, *Fair value measurement*. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available
- Level 3 valuations: Fair value measured using significant unobservable inputs

During the six months ended 30 September 2014 and twelve months ended 31 March 2014, there were no transfer between Level 1 and Level 2, or transfer into or out of Level 3. The Company's policy is to recognise transfer between levels of fair value hierarchy as at the end of the reporting period in which they occur.

(b) Valuation techniques and inputs used in Level 2 fair value measurements

For financial instruments that are not traded in the active markets, the Company determines fair values using valuation techniques. Valuation techniques include net present value and discounted cash flow models and various market widely recognised option pricing models. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, equity prices, foreign currency exchange rates, index prices, and historical or implied volatilities. The objective of valuation techniques is to arrive at a fair value determination that reflects the price of the financial instrument at the reporting date, that would have been determined by market participants acting at arm's length.

The fair value of available-for-sale financial assets is determined based on quotes from brokers or alternative pricing sources supported by observable inputs, either directly or indirectly.
